XC-DDV™

Distraction Device

Simulator

The XC-DDV produces a loud report simulating a flash-bang or distraction device and is activated by pulling the pin when squeezing and releasing the spoon before throwing. Visual effects powders can be added to simulate the dust or smoke produced by actual devices.

Utilizes the XC-CO2 base unit that operates off disposable 12 gram CO2 cartridges and burst discs.

NSN:6920016896006

XC-PBIED™

Person Born IED (Suicide vest) Simulator

Three XC-CO2 units with Angel Head Adaptors are simultaneously fired by a manually operated trigger. The disposable 12 gram CO2 cartridges and Burst Discs provide a loud visual report. Visual effects can be achieved by adding FX Powder, fake blood, or both.

Utilizes the XC-CO2 base unit that operates off disposable 12 gram CO2 cartridges and burst discs.
