

XC-DDV™ DISTRACTION DEVICE SIMULATOR KIT

The XC-DDV™ produces a loud report with a 3-5 second delay, simulating a flash-bang or distraction device and is activated by pulling the pin when squeezing and releasing the spoon while throwing. Visual effects powders can be added to simulate the dust or smoke produced by actual devices. Utilizes the XC-CO₂™ base unit that operates off disposable 12 gram CO₂ cartridges and burst discs.¹

This kit consists of:

- (10) XC-DDV
- (50) 12gm CO₂ cartridges
- (50) Burst Disks
- (50) Ounces of Visual FX Powder

¹ All Explotrain® LLC Battlefield Effects Simulators have an option for New Equipment Training (NET) to enable the user to maximize training effectiveness.
